

Bohuslav SOBOTKA
Prime Minister of the Czech Republic

San Francisco 4th April 2016

Dear Governor Brown,

I believe that climate change is one of the fundamental challenges of our time and the international community must work together to secure our planet for future generations.

The Czech Republic has noted the Subnational Global Climate Leadership Memorandum of Understanding, which goes back to the initiative of the State of California. The Czech Republic supports subnational actions on climate change and perceives cooperation of subnational authorities as an important part of the Paris Agreement implementation. Therefore, the Czech Republic supports this initiative and endorses the Global Climate Leadership Memorandum of Understanding.

I am also convinced that shared efforts towards climate change mitigation and adaptation open new opportunities for cooperation of Czech and Californian institutions as well as businesses.

Respectfully yours,
