

THE UNDER2 COALITION

DRIVING CLIMATE ACTION IN STATES AND REGIONS

The [Under2 Coalition](#) is a global community of state and regional governments committed to ambitious climate action in line with the Paris Agreement.

The coalition brings together more than 220 governments who represent over 1.3 billion people and 43% of the global economy. These governments include signatories to the [Under2 Memorandum of Understanding](#) as well as national endorsers and other supporters.

Signatories commit to keeping global temperature rises to well below 2°C with efforts to reach 1.5°C.

In their position between national and local governments, states and regions are uniquely placed to take innovative climate action and to influence others to do the same.

[The Climate Group](#) is the Secretariat to the Under2 Coalition and works with governments across three key workstreams. The Climate Group also works directly with state and regional governments on capacity-building projects to support the implementation of climate policy.

WORKSTREAMS

2050 Pathways

Providing technical support and resources to assist governments to develop long-term emissions reduction plans.

Policy Action

Sharing policy innovation and success to accelerate the transition to a net-zero economy.

Transparency

Increasing accountability by encouraging state and regional governments to disclose their climate targets, action and progress.

“THE COALITION BRINGS TOGETHER MORE THAN 220 GOVERNMENTS WHO REPRESENT OVER 1.3 BILLION PEOPLE AND 43% OF THE GLOBAL ECONOMY.”
